WORK HISTORY

Lot Manager

Botanicals, Inc.

04/2017 - Ongoing Sandy, Utah

Botanicals is an interior and exterior plantscape design service that also operates two retail locations that sell ceramic pottery and yard decor.

- Managed a small team of lot workers to ensure the outdoor retail lot remained cleaned and organized
- Provided excellent customer service, assisting customers with their design choices
- Unloaded shipments of pottery, assisted in large deliveries, and built fountains and other yard features
- Assisted in plantings and installations in hospitals, car dealerships, and offices

Web Developer

Botanicals, Inc.

<https://botanicalsdesign.com/>

- Performed the process of developing the Botanicals website through each step, from information architecture to designing and prototyping, to development using PHP and WordPress
- Created a custom WordPress theme utilizing custom post types
- Ran digital content and image acquisition for the website
- Wrote the copy and page content for the website

SUMMARY

Web Designer, Developer, and current student at Utah Valley University studying Web Design and Development.

Passionate about development and ready to enter the professional developer world to utilize the skills and experience I now have.
